

Horizon Europe: Cluster 6 - Food, Bioeconomy, Natural Resources, Agriculture and Environment

Calls 2023 and 2024

Information in this document is based on the published Horizon Europe Work Programme 2023-2024, which has been accepted by the European Commission (6. December 2022). You can find details about call topics of Cluster 6 per destinations from the following lists. Other actions are not included in this document. The amendment to the Work Programme will be accepted during spring 2023, and there might be changes in the calls listed in this document. So, when preparing proposal, you should explore the official Work Programme and call topics in [F&P portal](#) to make sure that the information presented here is correct. If you have any questions about the coming calls, you can contact your National Contact Point, NCP.

Cluster 6

The Horizon Europe mandate for Cluster 6 is to provide opportunities to enhance and balance environmental, social, and economic goals and to set human economic activities on a path towards sustainability. The underlying paradigm of Cluster 6 is therefore the need for a transformative change of the EU economy and society in order to reduce environmental degradation, halt and reverse the decline of biodiversity and better manage natural resources while meeting the EU's climate objectives and ensuring food and water security.

Budget: For the two years the total indicative budget is 1,791.5 million euros (2023: 1057.5 million euros and 2024: 734 million euros).

Topics: For the two years, the total number of call topics is 25 and the topics are separated under seven destinations. There are 100 calls for the year 2023 and the rest, 76 calls, are for the year 2024. These 176 calls include 25 two-stage calls.

Destinations: There are seven destinations with varying number of calls (from 11 to 38) and budgets (from 75.5 to 453 million euros). Destination 2 'Fair, healthy and environmentally-friendly food systems from primary production to consumption' has the biggest number of calls (38) followed by Destination 7 'Innovative governance, environmental observations and digital solutions in support of the Green Deal' (35 calls). In addition, Destination 2 has the biggest budget per destination (453 million euros), while destinations 1 'Biodiversity and ecosystem services' and 3 'Circular economy and bioeconomy sectors' follow (326 million euros each).

Actions: There are five types of actions for the year 2023 and 2024. The most common action is Research and Innovation Actions (RIA, 88 calls), followed by Innovation Actions (IA, 41 calls) and Coordination and Support Actions (CSA, 39 calls). In addition, there are seven Co-fund Actions (European partnerships) and one Pre-Commercial Procurement (PCP).

A total of 56 calls use the flexible **lump sum** option 2 (2023: 33 calls and 2024: 23 calls). There are 39 CSA, 12 RIA and 5 IA lump sum calls.

Indicative timetable: There are different openings for the calls. Check the destination tables for openings and deadlines of the calls.

1. Destination 1: Biodiversity and Ecosystem Services

Total indicative budget for the destination is **326 million euros**. There are **six call topics and 30 calls** including three two-stage calls. Of each call, there is information about the indicative total budget, expected EU contribution, number of projects expected to be funded, type of action, legal and financial set-up, and the technical readiness level (TRL) and if the call includes social sciences and humanities disciplines (SSH) or the New European Bauhaus (NEB) aspects in their scope.
